

Sponsoring the Antwerp Conservatoire Foundation

Actemium & VINCI Facilities are sponsoring the Antwerp Conservatoire Foundation

Actemium and VINCI Facilities are sponsors of the [Antwerp Conservatoire Foundation](#); a campaign was recently launched to renovate all the old pianos at the conservatory.

The [Royal Conservatoire of Antwerp](#) is a stimulating environment for young talented musicians who give of their best and strive to attain the highest level. What binds together each enthusiastic practitioner of his or her own artistic discipline, be that dance, drama or music, is the piano.

After a thorough examination, it appeared that the diverse collection of pianos (46 upright and 41 grand pianos) requires either replacing or thorough restoration. The PIANOPLAN is a programme to spread the cost involved, amounting to more than €600,000, over several years.

Do your bit and help ensure that the Royal Conservatoire of Antwerp continues to provide training of top international quality and to offer the talent of tomorrow the opportunity to develop.

More information is available on the website: www.stichtingconservatorium.be/save-the-piano
