

About VINCI Energies

At just about every moment in your life, you benefit from the contribution of VINCI Energies. We contribute to a changing world by connecting infrastructure, buildings and industrial sites to information and energy systems to improve your life every day.

In a world undergoing constant change, VINCI Energies focuses on connections, performance, energy efficiency and data to fast-track the roll-out of new technologies and support two major changes: the digital transformation and the energy transition.

Keeping pace with market change, VINCI Energies supports its customers by offering increasingly innovative solutions and services, from design to implementation, operation and maintenance.

With their strong regional roots and agile organisational structure, VINCI Energies' 1,600 business units boost the reliability, safety and efficiency of energy, transport and communication infrastructure, factories and buildings.

A decentralised organisation with shared values

VINCI Energies applies a multi-local business model based on entrepreneurship and networking of all its expertise, working closely with its customers to create value day-to-day.

Operating in 53 countries worldwide, our 1,600 business units intervene in [infrastructure](#), [industry](#), [service sector](#) and [information and communications technology \(ICT\)](#). Our business units share a common corporate culture and [common values](#), despite the diversity of their activities, [business lines](#) and structures. The basic organisation and management principles thus remain identical for all the business units of VINCI Energies.

The strength derived from being part of the Group

The VINCI Group is a world player in the construction and concession sectors. VINCI Energies accounted for more than a quarter of its activity in 2016 (26.7% of revenue).
